

Golden Apples Extracurricular Activities

Nurturing Great Potential

We're passionate about giving children magical moments alongside their EYFS learning.

Our optional activities add extra joy, creativity, and adventure to their day — helping them grow, explore, and make memories that last.

Extracurricular Activities Examples

Our extracurricular activities offer rich, meaningful experiences for every child across our nursery family.

From gentle, sensory-led moments that nurture our youngest children's early curiosity, to hands-on exploration and outdoor adventures that help our toddlers grow in confidence and independence, and through to exciting, purposeful experiences that support our preschoolers as they build problem-solving skills, creativity, teamwork, and a love of learning – each activity is thoughtfully designed to meet children where they are.

Together, these experiences create a joyful, developmentally supportive journey that encourages every child to explore, discover, and thrive.

Thank You for Exploring Our Extracurricular Activities

Golden Apples Family – Nurturing Great Potential

Thank you for taking a look through our Extracurricular Activities. These examples highlight the types of enriching experiences we offer alongside the EYFS curriculum.

This list is an example and not exhaustive. Activities may vary between nurseries and can change weekly depending on staffing, children's interests, resources, and seasonal opportunities.
